Equalized School Tax Rates (Col.1) are calculated using the Equalized Valuation and the amount raised by local taxation for school purposes from the 2002 Abstract of Ratables.

Ratio:Sch Tax Rate vs. State Avg (Col. 2) is calculated by dividing each municipality's equalized school tax rate by the state avg.

The State Rank (Col.3.) represents the 566 municipalities sorted highest to lowest according to the ratio of Equalized School Tax Rate to State Ave.

Col. 4 indicates the municipalities in which schools are operating under the New Jersey Supreme Court's 'Abbott' decision.
